the **story**

Southlake Towers is a beautiful Palm Bay, Florida 85-room apartment complex designed for seniors to enjoy independent living. Southlake was even awarded as a "Community of Quality" given to them by the NAHMA (National Affordable Housing Management Association). A way that they keep the community's standards high is by ensuring that the apartment features are as nice as the apartment amenities. Inpro was able to liven the elevator interiors of the complex to match the updated living quarters and facilities.

4" Flat. Turned Inn Brushed Stainless-Steel Handrail
Stainless Steel LED Pan Ceiling

the **results**

Residents and their families can now enjoy the luxurious design and feel of Inpro's Elevator Interior. The stainless-steel handrails offer safety, and a modern appeal to match the updated renovations throughout the complex. Southlake Towers did not have to sacrifice performance for aesthetics as Inpro Elevator Interiors will be able to withstand the day-to-day moving and commotion of the active residential community.

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
