## Project Profile

Architect: JRA Architects, Inc.

Contractor: Codell Construction Company

### The Project

Wildcat Coal Lodge is the dorm for the University of Kentucky men's basketball team. The lodge, which is near Memorial Coliseum, is 20,000 square feet and houses 32 student athletes.

The Lodge doesn't just honor the coal industry in name only. According to the agreement between the donors who gave the money for the Lodge – many of them coal operatives – and the University of Kentucky, the lobby of the dorm for the UK men's basketball team is a tribute exhibit to the coal industry.

### Inpro® Products Used

#### Washroom Systems

[VIEW PRODUCTS](#)

Solid Surface shower walls and shower bases were installed in all resident bathrooms

## **obsessed with protecting buildings<sup>®</sup>**

How they look. How they function.  
And how they protect the health and safety  
of the people who use them every day.

That's why we make hundreds of architectural  
products all under one roof and work tirelessly to  
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't  
have it any other way.
