the **story**

A new era of excellence begins for Colby College in Maine as their new athletic facility opens for the student-athletes and surrounding community. Featuring floor-to-ceiling windows, the 350,000 sq. ft. building includes an aquatics center headlining the only Olympic-sized pool in the state, a gymnasium, field house, ice rink, squash courts, strength and fitness center, coaching staff offices and more. The Vice President, Mike Wisecup, says: "This is a place for the community to come together and cheer on our Colby Mules, to host state athletic competitions for all ages, and for community groups to use the different venues for children and adult leagues."

the project

Lead Architect: Hopkins Architects
London, UK

Architect of Record: Sasaki
Boston, Massachusetts

Smooth Shower Wall Panels
Shower Base Connectors
Color Match Silicone

the **results**

Inpro was proud to serve Colby College with our Washroom Systems. Colby College said: "Teamwork, leadership, humility, resilience, and grit would come to define our spirit, and that spirit followed us to a new home in the fall of 2020 when the Harold Alfond Athletics and Recreation Center opened its doors." This project received LEED Platinum certification.

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
