# the **story**

The new 188,000 sq. ft USC School of Law features the largest library in the state of South Carolina. The multi-story law library overlooks a broad courtyard, and the limestone façade incorporates elements inspired by noted South Carolina architect Robert Mills, designer of the Washington Monument. Fostering an environment that is conducive to learning while also protecting the building was an important construction detail in the designing and installation of architectural products for this project.

# the project

Architect: Boudreaux Group, Columbia, SC in collaboration with SmithGroup JJR Washington, DC

General Contractor: Gilbane

## Inpro® Products Used

An array of products were installed, including:

### Commercial Window Treatments

[VIEW PRODUCTS](#)

Manual Solar Shades

Motorized Dual Shades

# the **results**

---

Inpro's Commercial Window Treatments were installed throughout the exterior windows and teaching courtrooms. Providing products that take part in the formation of students' futures is something Inpro is proud to do. We're not just about making a difference inside buildings - but inside our buildings' occupants' minds, too.

## obsessed with protecting buildings®

How they look. How they function.  
And how they protect the health and safety  
of the people who use them every day.

That's why we make hundreds of architectural  
products all under one roof and work tirelessly to  
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't  
have it any other way.
