## Project Profile

Architect: Studio G Architecture  
Jamaica Plain, Massachusetts

### The Project

Second of two phased renovations addressing the Men's Recovery from Addiction Program (MRAP) units. Studio G transformed rigid institutional 'mental wards' into welcoming, daylit therapeutic spaces for people in detox and early-stage rehabilitation. Double-loaded corridors are opened to create connected, engaging spaces for therapy and socializing, and offer views into common rooms and to the landscape beyond. Biophilic design incorporating natural colors and materials and references to elements found in nature were employed to contribute to patient healing.

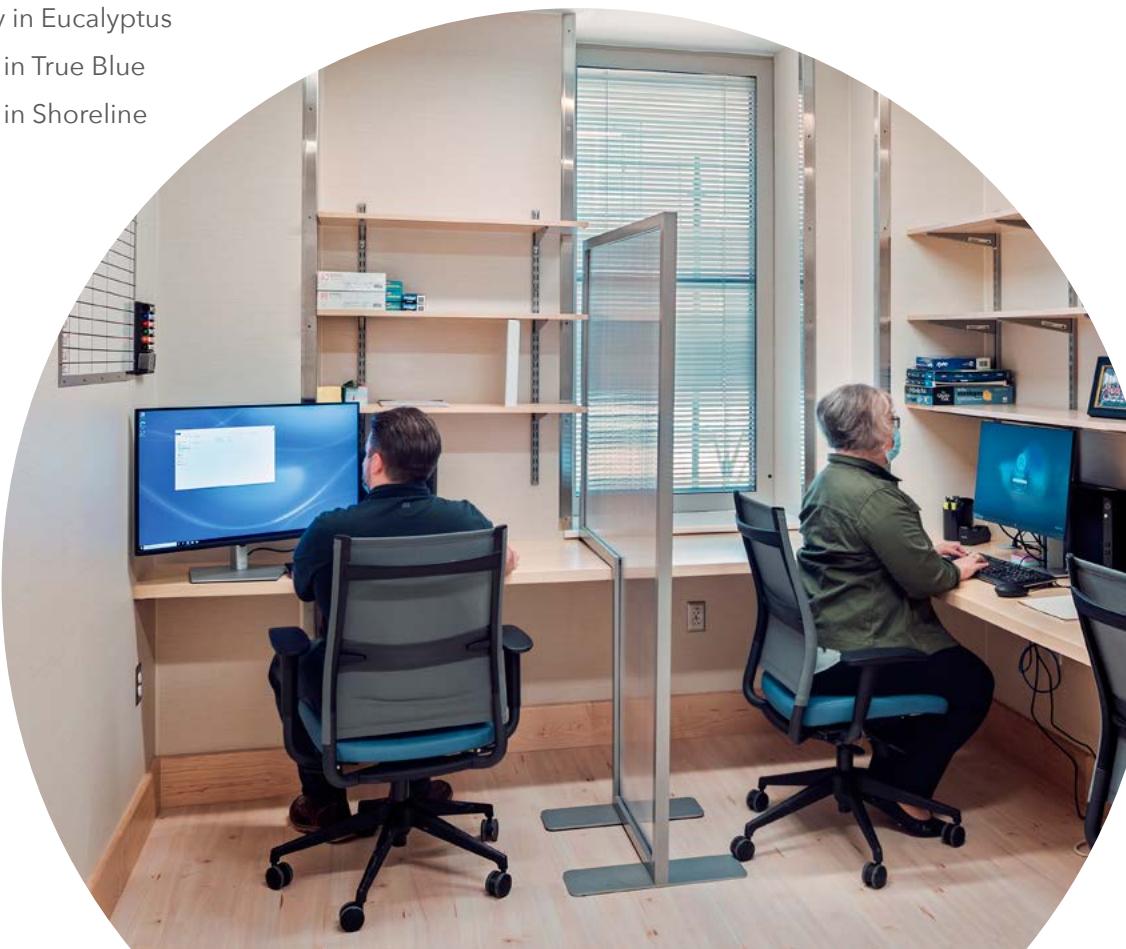

### Inpro® Products Used

#### Ricochet® Flexible Wall Protection

[VIEW PRODUCT](#)

Extensive installation of Ricochet® Flexible Wall Protection in both common and resident spaces throughout all MRAP units. Patterns and colorways as follows:

- Clarity in Eucalyptus
- Strata in True Blue
- Strata in Shoreline

## **obsessed with protecting buildings®**

How they look. How they function.  
And how they protect the health and safety  
of the people who use them every day.

That's why we make hundreds of architectural  
products all under one roof and work tirelessly to  
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't  
have it any other way.
