# the **story**

Spark by Hilton™ recently upgraded their elevator interiors with Inpro's durable materials to enhance resilience in high-traffic hospitality settings. For Spark's management, maintaining a consistent, polished look across all locations was key to reinforcing the brand's identity and delivering a cohesive guest experience. Inpro's durable elevator interiors not only protect the elevators from heavy use, but also support Spark's commitment to a clean, modern aesthetic that guests can expect at every property.

with Down LED Lighting
- 1 ½" Dia Round Stainless Steel  
Handrails with Turned In Ends

# the **results**

---

Spark by Hilton's elevator interiors seamlessly enhance its cohesive brand look while offering essential durability against everyday wear. By incorporating Inpro's durable Palladium® elevator panels, they are protected against the constant foot traffic and luggage impacts, reducing maintenance needs and keeping the space fresh and inviting for guests. This thoughtful upgrade boosts both aesthetics and functionality, ensuring the hotel remains visually appealing and well-maintained over time.

## obsessed with protecting buildings®

How they look. How they function.  
And how they protect the health and safety  
of the people who use them every day.

That's why we make hundreds of architectural  
products all under one roof and work tirelessly to  
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't  
have it any other way.
