Custom Apollo™ Elevator Cab

Palladium® Rigid Sheet Woodgrain Finish - Smoked Stratus

Stainless Steel Ceiling

Stainless Steel Handrails

Stainless Steel Bottom Panels

the **results**

Murray State University partnered with Inpro to give their Sparks Hall elevator cab a modern and stylish update. The design features sleek double vertical panels in the back corners with a Smoked Stratus finish, seamlessly complemented by Taupe panels throughout. Their cab features a polished stainless-steel ceiling and handrails, combining elegance, functionality, and safety. With durable and easy-to-install materials, the renovation ensures the elevators not only stand out but also remain functional and impressive for years to come.

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
