the story

The Greenheck Turner Community Center is an impressive 135,000-square-foot indoor turf facility. It features a full-sized field, walking track, jump pit, batting cages, and expansive viewing areas. This year-round center is designed to promote health, wellness, and athletics, accommodating a wide range of community activities. Named in honor of Mary Greenheck Turner, the center embodies the Greenheck family's longstanding commitment to community development, a legacy that began with the original Greenheck Fieldhouse in 1997. By addressing various recreational and social needs, the Greenheck Turner Community Center strives to nurture a sense of unity within the community, reflecting the belief that "community is about doing something together."

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
