## Project Profile

Architect: Stonehill Taylor  
New York City

Contractor: P.J. Dick Construction  
Pittsburgh

## The Project

Housed in the historic Arrott Building, this completely renovated 18-story, 124-room boutique hotel is located in the heart of Pittsburgh's Golden Triangle district. The property, part of the Autograph Collection by Marriott International, pays homage to the city's vibrant legacy and the new industrialists who are engaged in reinventing Pittsburgh. The city's history as a steel capital inspires a seamless blend of old and new through freshly envisioned interiors.

## Inpro® Products Used

Dramatic details are one of the hallmarks of The Industrialist, and Inpro's black aluminum and black high-impact rigid vinyl corner guards add an elegant level of protection throughout the hotel.
